OBITUARY.

Margaret Lestelle Givier.

It is not often members of a family are called upon to write an obituary for one of their own, but in this case, we feel no one else could do it for us. Our darling little baby girl was born the 15th of September, 1897, and sojournd with us only 3 years, 9 months and 12 days.

God gave the beautiful little creature a mission to fulfill, and on the afternoon of June 4 called her home for the little mission had been filled.

Our hearts and home are full of desolation, but we look up with streaming eyes, and say: "Oh Lord! we can not understand now, but bye and bye thou wilt let us know."

Every one of our readers knew our darling, we do not need to dwell on that, we can only pray for the peace that passeth all understanding and wait till the Lord is ready to unite us with the angel baby who was transplanted to the beautiful home above. "We watched her breathing thro' the night,

Her breathing soft and low,
As in her breast the wave of life
Kept heaving to and fro.

"Our very hopes belied our fears,
Our fears our hopes belied—
We thought her dying when she slept,
And sleeping when she died.

"For when the morn came dim and sad,
And chill with early showers,
Her quiet eyelids closed—she had
Another morn than ours."

Pay us—we need coin.

The Best Prescription For Malaria

Chills and Fever is a bottle of Grove's Tasteless Chill Tonic. It is simply iron and quinine in a tasteless form. No cure—No pay.

NOTICE.

To the citizens and property owners of the city of Wa-Keeney, special notice is hereby given by the mayor and city council, that all premises including alleys, etc., be given a thorough cleaning.

Notice is also given that the dog tax ordinance will be enforced on after June 1, 1901.

C. E. SHINQUIN,
City Clerk.

Unnecessary Loss of Time.

Mr. W. S. Whedon, cashier of the First National Bank of Winterset, Iowa, in a recent letter gives some experience with a carpenter in his employ, that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the drug-gist here and informed me that one dose cured him, and he is again at his work." For sale by Jones & Gibson.

A Good Cough Medicine.

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says Druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family both for ordinary coughs and colds and for the cough following la grippe, and find it very efficacious." For sale by Jones & Gibson.

In speaking of available candidates for congress in this district some have mentioned Headley of Gaylord, Dodge of Beloit and Jones of Russell. They are all good timber but the reputation Jones has of paying the freight puts him in a safe lead over the others.—Downs Times.

You Know What You Are Taking

When you take Grove's Tasteless Chill Tonic because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in a tasteless form. No cure. No pay.

Prosperity never lasts long after the millionaire railroad managers begin to fight and labor begins to strike. Good times are no accident. They never come, as other good things does, "without observation." They have to be worked for. They rest on the balance of profit, peace, industry, efficiency and expansion. All have to work to get them. Any small group can destroy them by needless difference. Railroad rows or strikes fast bring panics. The tides of the ocean of business, finance and industry are at high flood. A very little folly will begin the inevitable ebb.—Philadelphia Press.

A severe sprain will usually disable the injured person for three or four weeks. Many cases have occurred, however, in which a cure has been effected in less than one week by applying Chamberlain's Pain Balm. For sale by Jones & Gibson.

Skin affections will readily disappear by using DeWitt's Witch Hazel Salve. Look out for counterfeits. If you get DeWitt's you will get good results. It is the quick and positive cure for piles. Jones & Gibson.

When to Cut Alfalfa.

Alfalfa should be cut when not more than one-tenth of the plants have come in bloom. Cut at this early stage, the yield of hay for the season will be much greater than if the alfalfa is cut near maturity, and every pound of hay secured will be worth more for feed.

At the Kansas Experiment Station, a strip through a field of alfalfa was cut when one-tenth was in bloom, another strip was cut after full bloom had past. The strip cut early was nearly ready to cut the second time when that cut after full bloom was being harvested the first time. The strip cut early grew vigorously through the season and made three cuttings and a good aftermath. The strip cut after full bloom gave a low yield the first cutting and did not grow sufficiently to yield a good second cutting. Early cuttings seem to invigorate the plant.

The late cutting of the first crop seems to injure the plant more than at any other time, and we have found

it profitable to cut alfalfa the first time as soon as one-tenth was in bloom, even though the weather was bad and we know that the crop would spoil in curing. The increased yield from succeeding cuttings over that cut late much more than makes up for the loss of the first crop.

Successful clover growers, the first time they try alfalfa, often ruin the stand, so that it has to be plowed up, by waiting to cut until it reaches the stage at which clover is cut.

Experiments made in three states—Kansas, Colorado and Utah—prove that alfalfa cut in the first bloom will give the greatest yield and feeding value. The leaves of alfalfa contain more than three times as much protein as the stems, a ton of alfalfa leaves containing as much protein as 2,300 pounds of bran. Every care should be taken in curing alfalfa to save the leaves.

Fat hogs wanted about 200 pounds in weight at Geo Baker's.

If newspaper readers only understood what advertising meant they would say that the real news that effects the pocketbook is found in the advertisements of local merchants. The merchant who advertises is a reporter. He reports to the people through the newspaper what he has for sale, what bargains he has to offer, and it is real news. It affects the pocketbook of every family. If some merchant is making a big run on shoes and selling them cheap, that is news that every person who needs shoes ought to know. If another is offering special bargains in suits, underwear, corsets, hats, dress goods, furniture, carpets, groceries, anything that a family needs, why it is news that means money to every family and the people know it. That's why the merchants advertise in the newspapers.—Beloit Call.

HIS LIFE SAVED

By Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"I am sure that Chamberlain's Colic, Cholera and Diarrhoea Remedy at one time saved my life," says A. E. Lafallete, of Gregory Landing, Clark county, Mo. "If I was in such bad shape that the doctors said I could not live. When I was at the lowest ebb, one of my neighbors brought in a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and I took it and got instant relief. I soon got up and around. That was nine years ago and I am still in good health. Since then that medicine has always been in my house and always will be. It is the best on earth." For sale by Jones & Gibson, Druggists.

Wanted—Cattle to pasture: good grass and water; pasture 9 miles north-east of town. Address Kirby & Bartlett, Wa-Keeney, Kans.

Call at Jones & Gibson's drug store and get a free sample of Chamberlain's Stomach and Liver tablets. They are an elegant physic. They also improve the appetite, strengthen the digestion and regulate the liver. They are easy to take and pleasant in effect.

You are much more liable to disease when your liver and bowels do not act properly. DeWitt's Little Early Risers remove the cause of disease. Jones & Gibson.
